

Blues—

Hobbs' Blue Serge

SINCE a blue suit is almost an essential in a man's wardrobe, The House of Hobbs decided to make a suit of standard serge that would fulfill all demands. After many tests and experiments, Coronation Blue Serge was evolved as the superior serge that would answer all requirements.

It was named at the time of the Coronation of King Edward VIII in 1902 and since then has been manufactured by a famous Yorkshire mill expressly for The House of Hobbs.

The popularity that this material has earned in its 28 years' treatment, when backed by the famous Hobbs' quality tailoring, this suit merits your confidence.

Coronation Blue Serge is made from the purest heavy virgin wool and the finest indigo dyes. Each piece is cold water shrunk and guaranteed absolutely true and sea fast. It is any wonder that so many men trust Coronation Blue Serge year after year?

SPORT NOTES

UN BEAU'S DIFFICULT TASK

—(Continued)—

The recently announced weights for the \$100,000 Agua Caliente Handicap to be run next March at the Mexican course in Lower California, show that Willis Sharpe Kilmer's Sun Beau will have a formidable task indeed if his trainer essays to accept the weights. Sun Beau finished the 1930 season acknowledged the best of his hand-icap division, even though he has suffered several defeats.

In assigning him the top weight of 129 pounds the handicapper has made the task of the son of Sun Beau a formidable one. The next highest weight is 116 pounds, and it has been assigned to four horses: Miss Hall, Challenger II, Easter Stockings and Crack Dri-End. Each of the four might beat Sun Beau with a thirteen pound weight pull, or even with less of weight pull.

So far as America is concerned, Challenger II, is an unproved horse since he has yet to race. But he was one of the most formidable two year olds in the British Isles, and has been on this side galloping and training long enough to be well-informed. He may be either a great horse or just another thoroughbred, although the chances seem to lean toward his turning out to be a good one.

Miss Hall, of course is the 1 year old veteran who has a record of display in many great races. He is the same that was sent abroad in 1929 for a short English invasion, which turned out a failure. But over American tracks he is a horse to be reckoned with, even though he apparently is past his prime. Easter Stockings is a great race mare, and it would be no surprise to see her win.

In Crack Brigade Sun Beau will meet a horse of great ability. This youngster was a good two year old and ran Galati Fox to three quarters of a length in the Frodoes. Crack Brigade was rated by J. H. C. Cassidy after he was hurt in the running of the Kentucky Derby, and his whole training schedule since that time has had the big Agua Caliente race in view. He certainly ought to be ready to run now and if he can be brought back successfully he will prove troublesome.

Quite aside from the four in the second weight light, there will be plenty of opposition. At Mr. Harter's champion, Stargate, a horse handicapped at 115 pounds, was rated one of the best horses in the East last year. He was not as good as Questionnaire, but he was rated right behind that James Butler colt, which gave Galati Fox such a scare in the Lawrence Realization.

"What happy people you are to have six nice daughters! What resources for later years!"

"Yes, resources enough!" In the difficult nowadays consists in sustaining one's resources!"

"My doctor told me I should have to eat less meat."

"Did you laugh him to scorn?"

"I did at first, but when he said his bill I found he was right."

A local newspaper remarked the other day that newspapers are useful for reporting calamities, such as deaths, marriages, etc.

The editor of an exchange repeats the secret of how he writes such strong editorials. He says he has the habit of the right of him, a dictionary to the left of him, a typewriter in front of him, the waste basket behind him a chair under him and desks hanging over him.

It's not what you'd do with a million.

If riches should s'er be your lot, But what are you doing at present With the dollar and a quarter you've got?

Another reflection on the Scot. local women say that a Scotch man is lacking in human interest, because he is limited to two possible loves only, his bible, or his whisky.

Aunt Het says: "I hated to leave my handkerchief on the floor, but I couldn't squat on account of my knee knee and I couldn't squat with out spitting this old blue talest."

Gumbo: "I've got the finest wife in the country."

Mudd: "Yeah, that does make a man happy having his wife in the country."

Old Gent: "Now, can you give me a good reason why I should give you a nickel?"

Steady Boy: "I sure can. If I was an old gentleman with a nice new pig hat on and there was a lot of nice, black mud handy, and a nickel was for a nickel, I wouldn't start no argument."

GOVERNMENT ANALYST GIVES REPORT ON ALBERTA BEERS

Quality is Better than Pre-War

Rumors have reached us regarding the Quality of Alberta Beers and in order to settle the question, samples were taken out of Distributors Ltd. stock and sent to Dr. James A. Kelso, Provincial Analyst, University of Alberta. The following four questions were asked of Dr. Kelso:—

- (1) Is the Beer sufficiently matured?
- (2) How does it compare in quality with the Alberta Beer analysed by you in pre-war days.
- (3) Is the Beer wholesome in every way and free from all foreign substances?
- (4) What comments have you to make on the keeping qualities of the Beer submitted?

THESE QUESTIONS WERE ANSWERED BY DR. KELSO AS FOLLOWS:

- (1) All samples are, in my opinion, sufficiently matured.
- (2) In my opinion all of the Beers are of better quality than pre-war products, which was often cloudy. Beers tested by me during past year are much more uniform in strength, extract, etc. than those before the war.
- (3) I would consider the Beers wholesome in every way and free from deleterious constituents.
- (4) Judging from the forcing test all samples of bottle goods tested are efficiently pasteurized. The freezing test shows the Beer of satisfactory keeping qualities, with proper elimination of such proteins as are thrown out of solution by low temperatures. The draft Beer, not being pasteurized, could not be subjected to forcing or freezing test, and I consider samples of such Beer properly matured and of satisfactory keeping qualities if kept under correct conditions.

"The bottle liquors, with exception of the Porter and Stout were given a forcing and freezing test. This is done by keeping the Beer at temperature of 90 to 100 degrees for one week, then freezing solid and thawing in chipped ice. In all the samples there was neither cloudiness or any sediment, tests showing perfectly clear."

The original report is on file at Distributors Ltd., head office, Calgary, and is open to public inspection. Space only prevents us from publishing the report in detail.
